PROJECTS

09/2024 - Now

KSP Steel
Participated in modernizing production processes, optimizing warehouse management, and supporting digital transformation initiatives for a leading steel manufacturing company.
Customer: KSP
Team size: 20
TECHNOLOGIES USED:
• ReactJS, TypeScript.
• RTK query, Redux
• Socket.io
• Antd
• ChartJs
• Styled-component

06/2024 - 09/2024

SOOP Live Admin
Developed and managed the admin platform for SOOP Live, focusing on content moderation, user management
Customer: Afreeca TV
Team size: 8
TECHNOLOGIES USED:
• NextJS, TypeScript.
• Firebase
• React Query
• Radix UI
• Tailwind
• Styled-component

01/2024 - 06/2024

SOOP Live App
Contributed to the development of a live streaming mobile app, enhancing user experience, real-time interaction features, and overall platform stability.
Customer: Afreeca TV
Team size: 6
TECHNOLOGIES USED:
• React Native, TypeScript.

• React Query
• Zustand
• Reanimated 3
• Styled-component

06/2023 - 01/2024

Biollet Admin

Biollet Admin is a website that allows administrators buy information about photos that Biollet users have registered to sell. And Biollet Admin can edit facial landmarks created by Biollet users

Customer: Xperix

Team size: 5

TECHNOLOGIES USED:

• NextJS, TypeScript.
• Firebase
• Axios
• MUI

04/2022 - 01/2024

Biollet App

Biollet application is a blockchain application that allows users to register to sell photo information and identify similar photos, edit landmarks and receive tokens with registered information for sale.

Customer: Xperix

Team size: 5

Technologies used:

• React Native, TypeScript.
• Redux, Redux-toolkit, Firebase, Axios, MMKV, RNFS
• Notifee
• Flashlist
• FaceDetection
• Reanimated 2, RealmDB.
• React-native-crypto

03/2022 - 6/2022

True-VRoom

True-VRoom video platform powers productivity, enabling remote teams to meet, live stream and collaborate securely and efficiently

Customer: True Digital & Media Platform Company Limited

Team size: 7
