Duong Dinh Tu

React / React Native Developer

Ngày sinh: 05/02/1999
Giới tính: Male
Số điện thoại: 0855654257
Email: tucoi052@gmail.com
Website: https://ddtu.io.vn
Địa chỉ: 339 Minh Khai, Hai Ba Trung, Ha Noi

PROFESSIONAL SUMMARY

React / React Native Developer with 6+ years of experience building web and mobile applications using JavaScript and TypeScript. Strong expertise in React, React Native, Next.js, Redux, React Query, and modern frontend architectures, with hands-on experience integrating real-time communication, push notifications, third-party services, and native mobile capabilities.

Experienced in working across the full development lifecycle, from requirements analysis and UI implementation to API integration, performance optimization, testing, deployment, and production support.
Basic backend exposure with Node.js/NestJS and PostgreSQL/Firestore for API integration and debugging and databases including PostgreSQL, SQL.

TECHNICAL SKILLS

Frontend & Mobile
- React, React Native, Next.js
- JavaScript, TypeScript, HTML, CSS
- Redux, Redux Toolkit, Zustand
- React Query, RTK Query
- Ant Design, MUI, Radix UI, Tailwind CSS

Real-time & Communication
- Socket.IO
- WebRTC
- Agora
- Janus

Mobile Development
- React Native native modules
- Firebase Push Notifications
- Notifee
- CodePush / App Center
- Reanimated, Lottie
- FlashList

Backend & Database
- Node.js, NestJS
- REST API
- PostgreSQL, SQL
- Firebase / Firestore

EDUCATION

09/2017 - 06/2021 **Water Resources University**
Major: Information technology.

WORK EXPERIENCE

3/2022 - Now
CMC Global
React / React Native Developer

06/2022 - 08/2022
Eastplayers
Freelancer React Native

11/2021 - 03/2022
Trixgo
Freelancer React Native

02/2021 - 03/2022
PAL VN
React Native Developer

06/2020 - 02/2021
NMB Technology and Solution
React Native Developer

PROJECTS

04/2026 - Now
OTC Platform
Frontend Developer
Developed and maintained an OTC trading platform that supports digital asset transactions, user onboarding, KYC verification, order management, and transaction processing.
Customer: Istar
Team size: 10
Responsibilities:
- Develop and maintain core trading platform features using ReactJS and TypeScript.
- Implement order and transaction-related workflows and user-facing interfaces.
- Integrate real-time updates using Socket.IO.
- Implement data fetching and caching with RTK Query.
- Manage application state using Redux.
- Collaborate with backend and product teams to deliver trading and operational features.

Technologies: ReactJS, TypeScript, Redux, RTK Query, Socket.IO, Ant Design, Styled Components

09/2024 - 04/2026
KSP Steel
Frontend Developer
Participated in modernizing production processes, optimizing warehouse management, and supporting digital transformation initiatives for a leading steel manufacturing company.
Customer: KSP
Team size: 20
Responsibilities:
- Develop production and warehouse management interfaces.
- Build data visualization and operational dashboards using Chart.js.
- Implement real-time data updates using Socket.IO.
- Develop reusable UI components and business workflows.
- Optimize frontend performance and maintain application scalability.

Technologies: ReactJS, TypeScript, Redux, RTK Query, Socket.IO, Ant Design, Chart.js, Styled Components

06/2024 - 09/2024
SOOP Live Admin
Frontend Developer
Developed and managed the admin platform for SOOP Live, focusing on content moderation, user management
Customer: Afreeca TV
Team size: 8

Responsibilities:

- Developed admin interfaces using Next.js and TypeScript.
- Implemented data fetching and state management using React Query.
- Built reusable UI components with Radix UI and Tailwind CSS.
- Integrated Firebase services.

Technologies: Next.js, TypeScript, React Query, Firebase, Radix UI, Tailwind CSS, Styled Components

01/2024 - 06/2024

SOOP Live App

React Native Developer

Contributed to the development of a live streaming mobile application with a focus on real-time interaction and user experience.

Customer: Afreeca TV

Team size: 6

Responsibilities

- Developed mobile application features using React Native and TypeScript.
- Implemented state management with Zustand and server-state management with React Query.
- Built animations and interactive UI using Reanimated.
- Improved application stability and user experience.

Technologies: React Native, TypeScript, React Query, Zustand, Reanimated, Styled Components

06/2023 - 01/2024

Biollet Admin

Frontend Developer

Biollet Admin is a website that allows administrators buy information about photos that Biollet users have registered to sell. And Biollet Admin can edit facial landmarks created by Biollet users

Customer: Xperix

Team size: 5

Responsibilities:

- Developed administrative interfaces using Next.js and TypeScript.
- Implemented API integration and data management.
- Built interfaces for reviewing and editing facial landmark information.

Technologies: Next.js, TypeScript, Firebase, MUI

04/2022 - 01/2024

Biollet App

React Native Developer

Biollet application is a blockchain application that allows users to register to sell photo information and identify similar photos, edit landmarks and receive tokens with registered information for sale.

Customer: Xperix

Team size: 5

Responsibilities:

- Developed core mobile features using React Native and TypeScript.
- Implemented image-related functionality including face detection and landmark management.
- Integrated Firebase, local storage, notifications, and blockchain-related functionality.
- Optimized large data lists using FlashList.
- Implemented animations with Reanimated.
- Used RealmDB for local data persistence.

Technologies: React Native, TypeScript, Redux Toolkit, Firebase, MMKV, RNFS, Notifee, FlashList, Face Detection, Reanimated, RealmDB

03/2022 - 06/2022

True-VRoom

React Native Developer

True-VRoom video platform powers productivity, enabling remote teams to meet, live stream and collaborate securely and efficiently

Customer: True Digital & Media Platform Company Limited

Team size: 7

Responsibilities:

- Developed mobile application features using React Native and TypeScript.
- Implemented real-time communication using Socket.IO and WebRTC.
- Integrated Janus services for video communication.
- Implemented push notifications and interactive animations.

Technologies: React Native, TypeScript, Redux, Socket.IO, WebRTC, Janus, Firebase, Reanimated

04/2021 - 01/2022

Bigfast Shop

React Native Developer

Bigfast Shop is a mobile application for registered shops to sell fashion and cosmetic products to customers.

Customer: Bigfast

Team size: 5

Responsibilities:

- Developed mobile application features using React Native and TypeScript.
- Implemented application state management using Redux and Redux Thunk.
- Integrated real-time communication using Socket.IO and WebRTC.
- Implemented animations and interactive UI using Reanimated.
- Integrated Firebase and push notification services.
- Managed local application data using AsyncStorage.

Technologies: React Native, TypeScript, Redux, Redux Thunk, Socket.IO, WebRTC, Reanimated, Firebase, Push Notifications, AsyncStorage

06/2020 - 8/2020

VaccineForm

React Native Developer

VaccineForm is a mobile application that allows users to stay updated and follow the latest news about COVID-19 around the world. VaccineForm provides diverse news content on vaccinations and COVID-19

Customer: VaccineForm

Team size: 5

Responsibilities:

- Developed mobile application features using React Native and TypeScript.
- Implemented state management using Redux and Redux Thunk.
- Integrated real-time communication using Socket.IO.
- Integrated Firebase and push notification services.
- Managed local application data using AsyncStorage.

Technologies: React Native, TypeScript, Redux, Redux Thunk, Socket.IO, Firebase, Push Notifications, AsyncStorage

ACTIVITY

10/2018 - 2020

STUDENT INFORMATION CLUB

Technical member

- Manage the Library's computer room.
- Participate in activities to support students in computer skills, repair, and cleaning.

10/2017 - 10/2019

Faculty of Information Technology

Member

- Participate in organizing student activity programs in the department.
